Modus operandi: -

Paris and other banned foreign cigarettes suspected to be coming from Bangladesh via Kolkata on train. Smuggling foreign cigarettes is lucrative business to black marketers make a huge profit as they avoid customs duty. Smuggled cigarette are don't have pictorial warnings on them, as it is a mandatory as per the provisions of Sec.20(2) of Cigarette and Other Tobacco Product Act 2003. The cigarettes don't have manufacturing address on the packets and No bills of procuring or importing. The margin involved in smuggling of cigarettes is almost 100%.

Paris and many other foreign cigarettes brands are cheap and which are available for low price, act as a replacement to beedis in India. Many foreign cigarettes contain a very high content of tobacco dust which is especially injurious to health. In spite of their hazardous nature, foreign brand cigarettes are a big hit among youth due to their slim and distinct flavor. Traders in Begum Bazar have they counter parts in other states from where these cigarettes are believed to be smuggled.

The increase of smuggling of cigarettes into the country is only robbing the government taxes, but is also founding hawala rackets and leading to the effect on tobacco farmers in the country. We are suspecting several other racketeers operating from Begum Bazar and other areas in Hyderabad.
