MO. OF THE OFFENDER

The offenders obtain several Sim cards and create Paytm accounts and Bank accounts for the same. They will start posting the ads in Instagram on pretext of selling Mobile Phones and Electronic goods at lesser prices. Whenever any person shows interest to buy those, they will send fake older cell phone purchasing bills of other customer photos to gain the confidence of the victim, thereafter the victim wishes to continue the transaction with that person. Afterwards they will induce the victim that the item which was posted is for Urgent sale and several persons are shown interest, and then insist to transfer the money as advance. When the victim transfers the advance amount, the fraudster will then send a fake Amazon booking receipt that he is sending item through Amazon delivery courier and asks to deposit some more amounts. Later the same fraudster Contacts the victim with other Mobile numbers personating as customs department and convinces the victim that he is nearby his residence and insist to transfer the remaining amount, GST and excess amount saying that all these are refundable. Mostly the transactions happen through Paytm & HDFC bank accounts. Remaining accused persons are providing different bank accounts with different names for depositing the fraud amount in their accounts

and withdraw the amount in different places by using ATM cards. This modus operandi chosen by fraudster is mainly to deceive victims in the name of original name of company as general public is of the notation that they are transacting with a genuine products of Apple products which is wrong.
